

Measured Volume IV Set

- ▶ Available in 100/150 ml chamber with 10 ml overflow limit.
- ▶ Medical grade transparent polymer, suitable for infusing all types of fluids.
- ▶ Hanger facilitates hanging on the I.V. stand.
- ▶ Auto shut off valve acts as a floating indicator and automatically shuts off the drain path to prevent the passage of air in the line.
- ▶ No-kink device prevents kinking of tube during transportation.
- ▶ Sterile, disposable, non-pyrogenic, individually packed.

Tube Length
150 cm

Drop Rate
60 Drops/ml

Packing
10/Master box of 100

Variant

Luer Lock, Phthalates Free, Latex Free, With Y Site

HM-1220
HM-1222

Infusion Set for Single Use (Vented/Non-Vented)

- ▶ Disc type 15µm fluid filter at the bottom of chamber filters any particulate matter in the I.V fluid.
- ▶ Superior quality latex bulb for additional medication.
- ▶ Sterile, disposable, non-pyrogenic, individually packed.
- ▶ Infusion set with built-in air vent and microbial barrier hydrophobic filter.

Tube Length
150 cm

Drop Rate
20 Drops/ml

Packing
25/Master box of 500

Variant

Phthalates Free, Latex Free, With Y Site
Infusion Set with/without Luer Lock
Vented Infusion Set with/without Luer Lock
Premium Infusion Set

HM-1202
HM-1204
HM-1204 L
HM-1206
HM-1206 L
HM-1208
HM-1210

Micro Infusion Set

- ▶ Micro drip infusion set with drop size reduced to 60 drops per ML for paediatric and critical care patient.
- ▶ Specially designed cylindrical collapsible drip chamber to visualize the flow rate.
- ▶ 15µm fluid filter at the bottom of chamber

Tube Length
150 cm

Drop Rate
60 Drops/ml

Packing
25/Master box of 50

Variant

Luer Lock, Phthalates Free, Latex Free, With Y Site
Vented Chamber

HM-1212

Flow Regulator with IV set

- ▶ Flow regulator for precise flow control.
- ▶ Ensure safe application in demanding critical care settings.
- ▶ Reliable flow rate accuracy across the full adjustable scale.
- ▶ Rotatory design with ridges for easy grip and adjustment.
- ▶ Precise flow rate control of IV fluids with range of 5 ml/hr-250 ml/hr.
- ▶ Soft and kink resistant tubing.
- ▶ Provided with a latex free "Y" type injection port for intermittent medication.
- ▶ Sterile, disposable, non-pyrogenic, individually packed.

Tube Length
150 cm

Packing
10/Master Box of 100

Variant

Only IV FLOW REGULATOR (Can be used with all standard I.V sets using luer lock connections.)

HM-1214
HM-1216

Blood Administration Set Double Chamber

- ▶ Blood Transfusion set is employed for intravascular, gravity-controlled transfusion of blood or blood components.
- ▶ Most commonly transfusion includes red blood cells, platelet, and plasma transfusions.
- ▶ Strong, sleek and sharp spike to puncture blood bag outlets.
- ▶ Transparent & flexible drip chamber.
- ▶ Soft and kink resistant PVC tubing having a blood filter of 200 microns

Tube Length
150 cm

Drop Rate
20 Drops/ml

Packing
25/Master box of 500

Variant

Luer Lock, Phthalates Free, Latex Free
Double Chamber

HM-1224

Pressure Monitoring Extension Lines

- ▶ Used for high pressure monitoring, and connection between syringe infusion pump and patient
- ▶ Made from non-toxic medical grade PVC
- ▶ Provided with universal male luer lock and female luer lock at either end to ensure securely fit all standard equipment
- ▶ Optional lengths available

Length	Prime Volume
10 cm	0.09 ml
50 cm	0.45 ml
100 cm	0.90 ml
150 cm	1.40 ml
200 cm	1.80 ml
250 cm	2.25 ml

Packing
25/Master box of 600

Variant

Phthalates Free, Spiral

HM-1802
HM-1802 PE

Three Way Stop Cock

- ▶ Crystal clear transparent channel
- ▶ Minimum priming volume required for accurate drug administration
- ▶ Rotating male luer and two female luer connectors
- ▶ Arrow indication on the handle to indicate the direction of flow
- ▶ Connection meets 6% taper requirement to ensure leakage free fitment
- ▶ Sterile, individually packed in blister pack.

Size	Residual Vol. ≤ 0.20 ml
Pressure	5 Bar

Packing
25/Master box of 600

HM-2202

3 Way Stop Cock With Extension Lines

- ▶ Used as extension to IV Cannula
- ▶ Made from non-toxic, medical grade PVC
- ▶ Has two female luer lock ports and one male luer lock port, with rotatory lock for safe connection to other devices
- ▶ Three arm handle for smooth and easy operations
- ▶ Minimum residual fluid volume

Size
25/50/100/150/200 cm

Packing
25/Master Box of 600

Phthalates
Free

HM-2204

Ventilator Circuit

- ▶ Corrugated, flexible and lightweight tubing made of high quality plastic.
- ▶ Transparent for easy monitoring of water build-up or blockages.
- ▶ Circuits provides a better airflow and are cost effective.
- ▶ Standard connectors for secure fitment with high performance.
- ▶ Sterile, latex free and individually packed.
- ▶ 22 mm cap with 22 mm corrugated tube.
- ▶ 15mm male/ 22mm male and 15mm female angle connector with luer port

Size
Adult | Paediatric

Packing
1/Master Box of 20

Variant

Ventilator Circuit with Single Water Trap
Ventilator Circuit with Double Water Trap

HM-3702

Ventilator circuit with single water trap

Ventilator circuit with double water trap

Anaesthesia Circuit

- ▶ It is a lightweight, portable anaesthetic delivery device.
- ▶ Bain circuits employ a high fresh gas flow to give anaesthetic gases to the patient's airway while also washing off exhaled carbon dioxide.
- ▶ An inner corrugated tube transports fresh gases, while an outside corrugated tube acts as an exit for exhaled gases.
- ▶ A Bain circuit prevents exhaled gases from being re-breathed.
- ▶ One of the most significant advantages of these bain circuits is their small size and low cost. They also assist waste gas scavenging, have little dead space, and provide less resistance to breathing.

UNIT CONSISTS OF:

22mm Cap | 22mm corrugated tube 1.6 metres long
22mm expiratory valve | 2 litres antistatic rebreathing bag
Standard connectors | Green Tube

Size
Adult | Paediatric

Packing
1/Master Box of 20

Variant

Bain Circuit | **Anesthesia Circuit** | **Breathing Circuit**

HM-3704
HM-3706
HM-3708

Oxygen Mask

- ▶ Designed for convenient oxygen therapy to the patients or critical care.
- ▶ Moulded face mask manufactured from non-toxic and non-irritant medical grade PVC material.
- ▶ Provided with adjustable elastic strap for proper positioning of mask on the nasal area.
- ▶ Multichannel, kink-resistant tube is provided to ensure continuous flow of oxygen.
- ▶ Swivel connector for easy attachment to oxygen tube.
- ▶ Proximal end fitted with soft funnel shape connector for easy connection to oxygen source.

Tube Length
200/300 cm

Size
Adult, Child, Neonate

Packing
20/Master Box of 200

Variant

High Flow Oxygen Mask
Venturi Oxygen Mask

HM-1502

Aerosol Mask

- ▶ Nebulizing Mask.
- ▶ Soft, clear aerosol mask with anatomical form.
- ▶ Gently rolled, feathered edges with nose bridges for extra comfort.
- ▶ Rotating type connector for patient's comfort.
- ▶ The kit has nebuliser chamber to house the drug in liquid form with a funnel shaped vent to allow oxygen at high flow convert the liquid drug into droplets to reach lungs.
- ▶ Larger surface area provided by unique convex cone design, ensures maximum capillary action and eliminates medication wastage.

Tube Length
200/300 cm

Size
Adult, Child, Neonate

Packing
20/Master Box of 200

HM-1510

Twin Bore Nasal Oxygen Cannula

- ▶ Suitable for easy application and efficient administration of oxygen for greater comfort of the patient.
- ▶ Manufactured from soft, light weight non-toxic material, thus non-irritating even in long term use.
- ▶ Multichannel tube ensures continuous supply of oxygen, even if the tube is accidentally kinked.
- ▶ Twin prong/ nasal tips are designed to ensure equal volume of oxygen to both the air passages.
- ▶ Soft funnel shaped connector facilitates easy connection to oxygen source.
- ▶ Nasal prong ensures an uninterrupted flow of oxygen to the patient and offers better comfort for continuous use.
- ▶ Individually packed.

	Tube Length	Size
	200/300 cm	Adult, Child, Pediatric

HM-1508

Bacterial Viral Filter

- ▶ A >99.99% effective Bacterial/Viral Filter to prevent the spread of infectious particles into the circuits, machines and manual resuscitators.
- ▶ Protects the patient from Bacterial/Viral contamination.
- ▶ Reduces the risk of cross-infection among patients and hospital staff.
- ▶ Less cleaning and decontamination of anaesthetic machines and ventilators.
- ▶ Initial set-up with is simple, quick and secure.
- ▶ Different options ensure the right choice of device.
- ▶ Bact-Trap Filters should be changed every 24 hours or more frequently is resistance increase.
- ▶ Sterile, single use device, individually packed.

	Size
	Tidal VolumeMoisture Output
	Adult33.5 mg H2O/ L 150 – 1500 ml
	Paediatric 32.3 mg H2O/ L 70-250 ml

HME Filter

HM-1602
HM-1604

Expandable Catheter Mount

- ▶ Fixed Length Catheter Mount.
- ▶ Specially designed with double ports for specific application.
- ▶ Corrugated tube made up of medical grade polymer offers durability, flexibility and strength.
- ▶ Double flip top cap with seal having provision for both bronchoscopes as well as for suction catheters.
- ▶ Opening the first tab on the cap allows for the introduction of a bronchoscope whilst maintaining airway pressure and opening the second tab allows for suctioning if required.
- ▶ Double swivel elbow with 15 mm I.D. / 22 mm O.D. connector fits all standard tracheal tubes.
- ▶ 22 mm standard female connector is compatible with all breathing and ventilator circuits.
- ▶ Sterile, individually packed.

Size	Port Type	Diameter
	Bronchoscopy	3.40 mm
	Suction	9.40 mm

Packing
20/Master Box of 200

HM-3710

Endotracheal Tube Plain

- ▶ Made from non-toxic, clear, transparent, thermoresistant medical grade PVC (Polyvinyl Chloride).
- ▶ Fitted with standard 15 mm connector for attachments to all standard ventilatory circuits in operation theaters or intensive care units.
- ▶ Graduated markings to display distance from the tip.
- ▶ Well marked to indicate the internal/external diameter.
- ▶ Nasoral tip suitable for both nasal and oral intubation.
- ▶ Full length radio-opaque lines to assess position of the tube radiographically.
- ▶ Murphy's eye near the tip to circumvent any obstruction.
- ▶ Disposable, sterile, non-pyrogenic.

Size
2.0, 2.5, 3.0, 3.5, 4.0, 4.5, 5.0, 5.5, 6.0, 6.5, 7.0, 7.5, 8.0, 8.5, 9.0, 9.5, 10

Packing
10/Master Box of 200

HM-3002

Endotracheal Tube Cuffed

- ▶ **Murphy Eye:** Provides an alternate pathway for gas flow in case of occlusion.
- ▶ **High quality valve:** For reliable control of cuff inflation and pressure.
- ▶ **Clear 15mm connector:** Enables connection to standard anaesthetic and ventilation breathing system equipment.
- ▶ **Radio-opaque line:** To enable identification of the endotracheal tube on a chest X-Ray.
- ▶ **Calibration:** An accurate indication of insertion depth and an aid for monitoring the endotracheal tube position.
- ▶ **Depth marker lines:** To facilitate the placement of the tube during intubation. (This should always be confirmed by auscultation).
- ▶ **High volume, low pressure cuff:** Minimising trauma to the trachea with a low pressure seal against the tracheal wall protecting the patient's airway, preventing leakage and allowing accurate control of gas flow.
- ▶ **Smooth soft tip:** To reduce the potential of tracheal trauma during intubation.

 **Size**
3.0, 3.5, 4.0, 4.5, 5.0, 5.5, 6.0, 6.5, 7.0, 7.5, 8.0, 8.5, 9.0, 9.5, 10

 **Packing**
10/Master Box of 100

HM-3004

Guedel Airway

- ▶ **Oro-Pharyngeal Airway.**
- ▶ Guedel Airways are designed to maintain an unobstructed oropharyngeal airway during or following general anaesthesia and in patients who are unconscious for other reasons.
- ▶ Manufactured from non-toxic, non-irritant EVA polymer.
- ▶ Atraumatic soft-rounded edges.
- ▶ Provides access for the insertion of suction catheters.
- ▶ Flexible to ensure dental protection.
- ▶ Integral hard bite block avoids airway occlusion and biting of tongue.
- ▶ Design of the tube conforms to the oropharyngeal anatomy.
- ▶ Stepless airway path for easy cleaning.
- ▶ Bite blocks are colour coded for instant size identification.
- ▶ Individually packed in peelable soft blister pack.
- ▶ Sterile, ready for use.

 **Size/Colour Code**
0/Blue | 00/Pink | 000/Clear | 1/Black
2/Green | 3/Yellow | 4/Red | 5/Orange

 **Packing**
50/Master Box of 400

Yankur Suction Set

- ▶ Moulded Yankur Suction Handle Set made up of ABS material.
- ▶ Used for removal of secretions and blood operatively by providing unobstructed suction during prolonged use.
- ▶ Soft flexible adaptors at both ends of the tube provide safe grip to the handle as well as suction source.
- ▶ Suitable for use with or without vent control facility.
- ▶ Vent port is closed with tight fit sleeve, which can be removed by small incision to shift to vent control system.
- ▶ Sterile, individually packed in a peelable ribbon pack.

Tube Length
O.D 9 mm
250 cm

Packing
10/Master Box of 120

Variant

Yankauer Suction Catheter Standard Tip
Yankauer Suction Catheter Flower Tip

HM-2902

Umbilical Cord Clamp

- ▶ Suitable for clamping the umbilical cord of newly born baby immediately after their birth.
- ▶ Provided with dual security lock with distinct "click" sound to indicate the correct locking of the umbilical cord.
- ▶ Manufactured from non-toxic medical grade polymer.
- ▶ Sterile, individually packed in blister pack.

Packing
100/Master Box of 4000

HM-3602

Abdominal Drainage Kit

- ▶ Specially designed kit for post-operative abdominal drainage.
- ▶ Consists of super smooth drainage catheter along with a collection bag.
- ▶ Provided with specialised handle which holds the tube upright, prevents accidental kinking during handling and suitable for bedside hanging.
- ▶ Soft and smooth catheter with large atraumatic eyes for efficient drainage.
- ▶ Radio-opaque line throughout catheter length help x-ray visualization.
- ▶ Sterile, individually packed in a peelable pouch.

Size	16 FG 20 FG 24 FG 28 FG	Bag Capacity
	32 FG	2000 ml

Packing
10/Master Box of 100

Urine Collection Bag

- ▶ Intended to use for short or long term urine drainage.
- ▶ Two litre capacity bag provided with 100/150 cm long super smooth kink resistant tubing ensures unrestricted flow.
- ▶ Moulded handle facilitates easy handling of bag and holds the tube in upright position to prevent kinking.
- ▶ Efficient non-return valve with top outlet.
- ▶ Modified tapered connector facilitates aseptic catheter-urine bag connection.

Tube Length	100/150 cm	Bag Capacity	2000 ml	Packing
				25/Master Box of 200

HM-3202

Urine Meter (Urine Bag with Measured Volume Chamber)

- ▶ Urine Bag with Measured Volume Chamber.
- ▶ Capacity of urine collection bag : 2000 ml
- ▶ Soft, frosted and kink resistant PVC tubing
- ▶ With T-type Bottom outlet
- ▶ Available with specially molded hanger for easy handling

Size
Measuring Chamber 250 ml, 500 ml Tube Size 100/150 cm

Packing
5/Master box of 50

HM-3206

Foley Catheter

- ▶ Intended to use for short or long term urine drainage.
- ▶ Made up of latex bonded with silicone elastomer which eliminates the risk of encrustation.
- ▶ Distal end is coned and provided with super smooth, burr free eyes for atraumatic intubation.
- ▶ Provided with symmetrical large capacity balloon that ensures straight tip for proper urine flow and good sphincter action, preventing bladder leakage.
- ▶ Non-return valve ensures trouble free inflation and deflation of balloon.
- ▶ Valve is colour coded for instant size identification.
- ▶ Sterile, individually packed in peelable, soft blister pack.

Size
Two Way - FG - 6, 8, 10, 12 - 24
Three way - FG - 16, 18, 20, 22, 24 & 26

Packing
50/Master Box of 500

Variant

2 Way
3 Way

HM-1902
HM-1904

ECG Elecrode

- ▶ Latex Free ECG Electrodes.
- ▶ Hypo-allergic adhesive allows for excellent patient adherence and withstands difficult conditions.
- ▶ Specially formulated solid gel delivers excellent results with no post procedural clean up.
- ▶ Unique gel allows to provide the best possible interface between patient and the machine during monitoring.
- ▶ Suggested use: Stress/ Resting/ Monitoring.

Size

Dimensions H x W x T : 45 x 42 x 1 mm

Packing

500/Master box of 6000

HM-3402

HM-3404

Lung Exerciser

- ▶ Useful in restoring and maintaining lung capacity of post-operative ambulatory and COPD patients.
- ▶ Improves respiratory parameters, maximal exercise capacity and overall cardiopulmonary status.
- ▶ Air filter for enhanced protection.
- ▶ Transparent, well calibrated chambers for accurate estimation of exercise capacity.
- ▶ Soft, aesthetically coloured inspiratory tubing.
- ▶ Colour coded triple ball design for proper visual feedback.
- ▶ Sleek, stable design.

UNIT CONSISTS OF:

- Transparent main body comprising of three volume chambers
- Base plate
- Spheres of Red, Yellow and Blue colour
- Connecting tube
- Patented mouth piece with in-built filter

Size

Adult, 3 Ball Model

Chamber Sphere	Volume
Red	600 cc/sec
Yellow	900 cc/sec
Blue	1200 cc/sec

Packing

1/Master box of 50

HM-3502

Bed Bath Towel

- ▶ Bed Bath designed for cleaning and moisturizing the body in one step
- ▶ Bed Bath has Anti-bacterial properties of Aloe-vera
- ▶ Bed Bath can be used cold and warm
- ▶ Bed Bath is alcohol free, promotes healthy skin with an appealing fragrance
- ▶ Removes the risk of Micro-organism transmission associated with wash bowl contamination

Size
210mm x 320mm | 320mm x 320mm

Packing
HaleMed Bed Bath Towel 320x320 -Pack of 36
SENTRY (Bed Bath Towel)210x320 - Pack of 50

Variant

36 pkts in one cartoon
Sentry: 50 pkts in one cartoon

Under Pad

- ▶ Heavy duty absorbency and keeps the body dry
- ▶ Super Absorbent Polymer (SAP) - Evenly spread, absorbs fluids and become GEL
- ▶ No back flow of fluids
- ▶ Not using Tissue Paper
- ▶ Waterproof back sheet to prevent leakage
- ▶ Tear Resistant
- ▶ Thermal compressed

Size
60 cm x 90 cm

Packing
HaleMed UnderPad 60cm x 90cm - 20x10=200
HaleMed UnderPad 60cm x 90cm - 1x 200

HM-3902

Tie-on Mask

- ▶ 3 Ply disposable protective surgical mask ideal for daily use.
- ▶ Single use product.
- ▶ 3-Ply design with Blown Filter, Adjustable Aluminium Nose Bridge fits the shape of the nose for firm grip.
- ▶ Fluid repellent.
- ▶ Completely latex & fiberglass free, Hypoallergenic.
- ▶ Skin-friendly & breathable Tie on type face mask. Made from latex-free, hypoallergenic non-woven fabric.
